Have you ever had questions about

1. How patenting works
2. How can you protect intellectual property
3. Or the formalities needed for material transfer between Labs/Insitutions?

Genesprout Initiative together with Rijksdienst voor Ondernemend Nederland and Wageningen University & Research present to you a workshop on the world of Intellectual property rights. This workshop will also address very important topics for today's agricultural scenario like breeders rights and CRISPR-Cas products.
