Open position: Head of Metabolomics Platform

A position for a metabolomics platform manager with a solid track record in plant science and technical expertise in analytics/metabolomics (GC-MS and/or LC-MS) is available at the Department of Biology from January 1st, 2021.

Particularity

The successful candidate is expected to lead a metabolomics platform with the help of a part-time technical assistant and contribute to teaching in plant science, analytics/metabolomics and/or systems biology at the bachelor and master level. The establishment of an independent research program in plant metabolomics or related fields is welcomed and supported. The position is available at the level of junior group leader (maître-assistant).

Domain of activity

As a member of the Department of Biology, the candidate will have shared access to laboratory, growth chamber and greenhouse space. In addition to the metabolomics platform that she/he will run and coordinate, the candidate will have access to a state-of-the-art imaging, proteomics, and bioinformatics platforms. The position is initially available for a duration of 5 years (3+2), with the possibility to be stabilized.

Starting date

January 1st, 2021

Information

More information can be obtained from Prof. Laure Weisskopf (laure.weisskopf@unifr.ch) or from Prof. Jörn Dengjel (jörn.dengjel@unifr.ch).

How to apply

Please send your application as a single pdf document to canaan.abebe@unifr.ch. Your application should include a motivation letter, a complete curriculum vitae including a copy of the diploma of the highest degree, a statement of technical expertise related to analytics/metabolomics, a full publication list highlighting the three most important publications, a short statement of future research and funding plans, a record of teaching experience and the names and contact details of three references.

Applications deadline: October 31st, 2020
